Caring for and supporting adults, children, and families

OUTPATIENT SERVICES

ENHANCING COPING AND LIFE SKILLS

Life ...

it's not what happens to you...

But what you do

with what happens to you.

Touching Lives for Greatness

People are valuable. Therefore, PCS exists to help children, adults, and families discover their greatness.

When the informal resources of family and friends are not successful in problem solving, more formal resources such as physicians, clergy, or mental health professionals may be called upon for help.

From its inception, PCS has provided individuals with a nurturing environment whereby they are encouraged to explore their individual growth needs and to discover new and more adaptive ways of thinking, feeling, and behaving.

As a large, multi-disciplinary practice, PCS offers a broad range of outpatient services to children, adults, and families. Our clinics provide a variety of treatment approaches designed to meet the needs of each individual, using the diverse educational backgrounds, skills, and expertise of our clinicians—all with a passion for their craft in helping touch lives for greatness.

We strive to fulfill our mission by helping clients learn more about themselves and leading them toward more productive and fulfilling lives.

Outpatient Services Offered:

- Mental health treatment/counseling including individual and group therapy as well as marital and family counseling
- Specialized treatment for drug & alcohol problems, eating disorders, addictions, sexual issues, codependency, victims of abuse, and other specific issues
- Intensive Outpatient Program (IOP) for persons with drug or alcohol problems—recognizing the need for individuals to live at home and remain employed while receiving care
- Other forms of specialization including counseling for Spanish-speaking populations in a number of our locations, as well as specialized services to businesses
- Psychological/educational/vocational testing and counseling
- Psychiatric evaluations and medication management
- Services to children and adolescents in schools and communities
